by
2nd September 2007**

The 8th International Power Engineering Conference IPEC2007 3rd – 6th December 2007 SINGAPORE

Call for Papers

“Sustainable Development of Electric Power Systems: Challenges and Opportunities”

We are pleased to announce the eighth International Power Engineering Conference (IPEC2007) in Singapore, from 3rd – 6th December 2007, and we would like to invite you to join us in the event.

The biennial event first started in 1993 and seven IPEC conferences have been held to date. All the previous seven IPECs were very successful, with some 200 delegates from 23 to 25 countries participating on each occasion. The forthcoming 8th IPEC is co-organized by Nanyang Technological University (NTU), Singapore Power Ltd, Institution of Engineers, Singapore (IES), the IET Singapore Branch and the IEEE Power Chapter Singapore.

Selected papers will be published in a special issue of the International Journal of Emerging Electric Power Systems (IJEPS). All accepted papers shall be included in IEEE Xplore database and indexed by the Engineering Index (EI).

The identified theme of IPEC2007 is “Sustainable Development of Electric Power Systems: Challenges and Opportunities”. IPEC2007 welcomes technical contributions in all areas of power engineering and power electronics, with special emphasis on the theme of the conference. The topics of interest are broadly categorized into, but not limited to, the following:

- Electricity market liberalization and economics
- Power system planning
- System reliability, security and risk assessment
- Network dynamics, analysis and control
- Modeling of power system components
- Blackouts: Prevention, Analysis, Restoration
- Renewable energy and distributed generation
- Energy storage
- Power electronics and applications
- Electrical machines and drives
- Protection
- Power quality
- Transmission: HVDC and FACTS
- Asset management: condition monitoring, knowledge extraction, failure analysis
- High voltage engineering
- Power system operations
- Distribution system and substation automation
- AI applications
- Emerging Trends: Integrated substation, active network
- Power system communication/IT solutions: wireless works management system
- Visualization of network information: intelligent meters
- Security measures to safeguard installations
- Power engineering education

Fax: (65) 6356 7471
Email: info@ipec.sg

For general inquiries, please contact L Goel at elkgoel@ntu.edu.sg

Submission Procedure

Authors are invited to submit full-length papers in one or more of the areas identified above. All submitted papers must be IEEE Xplore compliant. Detailed instructions on making the submitted papers IEEE Xplore compliant can be found on the conference web site at <http://www.ipec.sg>. Please note that the maximum number of pages per paper is restricted to 6. Additional page charge of S\$100.00 per page will apply to papers exceeding the page limit.

Papers must be uploaded as PDF files on the conference web site directly. No hard copy submissions will be entertained. All submitted full papers would be fully peer reviewed by specialist referees assigned by the technical program committee. Accepted papers would be selected for either **Oral or Poster presentations**.

Authors whose papers are accepted must register for the conference by the early bird deadline of 1 October 2007 in order for their paper(s) to be included in the conference CD-ROM Proceedings. No registered author can present more than two papers (oral or poster) in a single registration. Each student registration is only entitled to one presentation (oral or poster).

Keynote Speakers

Three keynote speakers, one each sponsored by the IES (Singapore), IEEE PES (USA) and IET (UK), are expected to address the conference delegates concerning the various issues facing the power industry and power engineering education in both the regional and international arena. Christopher Root, Senior VP of T&D Services for National Grid USA, will be the IEEE PES keynote speaker.

Tutorial Speakers

Two tutorial sessions are scheduled to run concurrently on 3 December 2007. BF Wollenberg will be one of the tutorial speakers.

Exhibition

A small exhibition will be held in conjunction with the conference. Interested exhibitors should contact Thomas Foo at emkfoo@ntu.edu.sg

Registration Fee / Tutorial Fee

Authors/Paper Presenters will be required to pay registration fee by 1 Oct 2007, in order for their papers to be published in the conference proceedings and scheduled for oral presentation. **The early bird registration deadline is 1 Oct 2007.**

Conference	Early Bird Registration (Member*): S\$700
	Early Bird Registration (Non-Member): S\$ 750
	Normal Registration** (Members* & Non- Members): S\$800
	Student Registration: S\$ 450
Tutorial	Conference delegates: S\$350
	Non-Conference delegates: S\$600

Member* - Member of the five co-organizers of the conference
Normal Registration** - applicable after Oct 1, 2007

The registration fee includes 1 set of CD-ROM proceedings, Book of Abstracts, a conference bag, 3 lunches, tea/coffee breaks, a conference banquet. The tutorial fee includes 1 set of tutorial notes, 1 lunch, tea/coffee breaks.

Official language

The official language for written and printed materials, as well as for presentation and discussion, is English.
