## **INTRODUCTION**

Safety in construction sites is of paramount importance not only to protect oneself but also to ensure safety for fellow site personnel on site. This programme is for stakeholders in construction projects (Resident Engineers, Resident Technical officers, Site Supervisors etc) and it explains the laws on safety for construction site and discusses construction safety for the various site operations commonly executed in a construction project.

## **OBJECTIVE**

Participants will know how the current laws related to safety in Singapore protect them and their fellow site personnel. They will be able to supervise and/or carry out daily site operations with a focus on safety. They are able to identify hazards related to various site activities and take steps to control risks arising from such hazards.

## **CV OF SPEAKER**

Er. Teo Ee Huat graduated from Nanyang Technological University with a B.ENG (Civil) degree in 1996 and has since completed a MSc in Civil Engineering (NUS) and MSc in International Construction Management (NTU). He is actively involved in education and has completed a M.Ed with University of Western Australia in 2010. He is a Singapore registered Professional Engineer and Qualified Erosion Control Professional. He is currently serving as the Co-Chairman of Qualified Erosion Control Professional Panel, IES and has trained Professional Engineers as Qualified Erosion Control Professionals and also trained construction site supervisors in implementation, inspection and maintenance of Earth Control Measures. He has written papers in International journals on issues related to Construction Management and other issues.
