

1 Day Design for Safety (DfS Guideline 2022) Training course 2nd run

**** Supported by UTAP**

IES Academy

Introduction

The WSH Council published the “Guidelines on Design for Safety in Buildings and Structures” as best practice in 2008 and kick-start the Train-The-Trainer (TTT) course by WSH Council and ESIS Asia Pacific Pte Ltd in the following year 2009. The first batch of Project Safety & Health Co-Ordinator (PSHC) received the competency certificate in Jul 2010. *(Note: The title of PSHC was changed to DfS Coordinator in 2011 and DfS Professional in 2015).*

The DfS guidelines has been revised and updated in 2011, 2016 and 2022. Although the DfS guidelines did not fall under the WSH (Approved codes of practice) Notification it is nevertheless an important document that provides the DfS outlines and template for Developer-Designer-Contractor (DDC) to kick-start the DfS planning for design and construction for any new project.

To benefit from DfS, we will require stakeholders (DDC) to think through the lifecycle stages of a building/construction project to eliminate or reduce the “design risk” right from the source with collective protective measures instead of personal protective measures (PPE).

We believe DfS is the ideal platform/tools for DDC to plan and design out the lifecycle risks. DDC will understand the important of eliminating/reducing the “design risks” as the “residual risks” which become the “construction risks” are likely to create safety & health impact on the affected persons. (I.e. Construction-maintenance-repair and demolition workers).

We believe the DfS will change the mindset of DDC and moving towards Vision Zero for sustainability.

Objectives

Upon completion of this training course, participants will understand the latest DfS changes and adopt the latest DfS guidelines for the new project.

Participants will also benefit from the knowledge and experience of the DfS practitioner. The refresher training course will also share the DfS challenges face by Developer, Designer and Contractor with the objective to achieve reasonably practicable solutions. In addition, the participants will have a better understanding of what the DfS Register comprises of and how to prepare the DfS Register for handover when the project has obtained the BCA TOP/ CSC certificate.

Course Outline

- New WSH initiative and update
- WSH Act/ Regulations/ ACOP/ Guidelines update
- Old and New WSH-DfS Guidelines
- DfS examples
- Case Study
- Other relevant DfS guidelines
- Sharing of DfS experience
- Quiz

**Only DfSP/DfSC certified by IES Academy who successfully pass the quiz of this course will be issued a designated safety pass. The safety pass serves as official recognition of their proficiency in Design for safety.*

Trainers' Profile

Darren Peter Benger
Managing Director
B. Architecture (Hons.), University of Adelaide

Darren received his Bachelor of Architecture degree with First Class Honours from the University of Adelaide, Australia in 1995, and registered with the Board of Architects, Singapore in 2001.

Since 1996 Darren has resided in Singapore, and he is currently Managing Director of the architectural practice VivATA Pte Ltd and an elected member of the Board Of Architects.

Darren's involvement in the Singapore Institute of Architects includes election to Council from 2007 to 2021, and he has actively participated in various SIA committees, including chairing the SIA WSH Committee. Also, Darren served as SIA's representative to the WSH Council (Construction & Landscape) Committee and to it's 'Design for Safety (DfS)' sub-committee prior to and during the formation of the DfS regulations.

Pursuant to the WSH Council 'Guidelines on Designing for Safety in Buildings and Structures,' Darren attained accreditation from WSH Council as a Trainer for the Design-for-Safety Professional Course (fka DfS Coordinator and Project Safety & Health Coordinator Course) after participating in the inaugural PSHC 'train-the-trainers' course in 2009. In line with SIA attaining Accredited Training Provider status, Darren actively led the arrangements, and co-conducted the training, for Singapore's inaugural run of the PSHC Course in August 2010. Darren continues to conduct the DfSP course for SIA and contributes to the DfSP course and DfS appreciation talks for IES.

Darren serves as a DfS Professional on various building projects
