Course Synopsis

This course is design to assist engineer to prepare for Practical Professional Exam in Civil Engineering. The syllabus of the exam is very wide; many engineers do not know how to prepare for the exam. This course uses systemic approach to cover major topics.

This course has three modules and it will be helpful for candidate to attend all three modules, however, candidates may also attend individual module to suit their work schedule. Work example will be discussed during the course with illustration on how regulatory requirement shall be applied.

Course Contents

1. Objective of PPE Exam
2. Professional Engineer duty and responsibility
3. Feedback on past exam results
4. Structural framing concept, comparison of different types of structure such as steel, concrete, prestressed concrete, precast concrete etc.;
5. Importance of structural stability and robustness;
6. EuroCode application on conceptual design

Trainer Profile

Er. Wong Pui Fun, Joanne is the Associate Director of Meinhardt Infrastructure Pte Ltd. She has more than 30 years of post-graduate practical experience in construction industrial. She has experiences in wide range of building and infra projects. She is well verse with authorities' requirement, rule and regulation and various code of practice.

She has been acting as Qualified Person Professional Engineer (Civil) for many iconic projects on behalf of project owners as well as contractors. She sits in various committees in IES and ACES.

Joanne also conducts other IES training courses for Engineers. She is familiar with the PPE exam requirements.
