30 November 2021

All registered CEng (Environmental & Water),

Dear Sir/Madam

Registration as ABC Waters Professionals

We are pleased to inform you that with immediate effect, Chartered Engineers (CEng) from the Environmental & Water Sector, can be eligible to register themselves as an Active Beautiful Clean Waters Professionals (ABC WP) with IES.

The ABC WP Monitoring Committee has recognized that Environmental Engineers who are CEng, are trained in relevant aspects of ABC Waters design. On this basis, it was decided to allow CEng (Environment & Water) to be eligible for registration as ABC WP. However, you would still need to satisfy the necessary registration requirements, such as successfully completing 4 Core Modules and 2 Elective Modules. Details are given in the Annex.

We look forward to your participation in the ABC Waters Professional programme.

Should you have any queries, please contact Victor Tham at victor.tham@iesnet.org.sg – DID: 64611249.

Thank you.

Sincerely,

ABC Waters Professional Monitoring Committee
