Note: It is an offence to make or produce to the Joint Accreditation Committee any document, declaration, certificate, report, record or notice which is false. IES reserve the rights not to disclose any information pertaining to the project detail and the relevancy of experience from the committee

Notes:

Applications **must** be accompanied with

A duly completed prescribed application form; and

One of the following academic qualification:

1. A Degree from any local university or a Diploma from any local polytechnic in Civil Engineering or Structural Engineering;
2. A Diploma in any construction-related field from any local polytechnic or Diploma in Construction Engineering from the Building and Construction Authority Academy, and has at least one year of such relevant practical experience in full-time supervision of structural works in Singapore construction sites as may be acceptable to the Commissioner of Building Control;
3. A Diploma or higher certificate from any foreign polytechnic in Civil Engineering or Structural Engineering, and has a at least **two years*** of such relevant practical experience in full-time supervision of structural works in Singapore construction sites as may be acceptable to the Commissioner of Building Control;
4. A Degree from any foreign university in Civil Engineering or Structural Engineering, and has at least two years* of such relevant practical experience in full-time supervision of structural works in Singapore construction sites as may be acceptable to the Commissioner of Building Control;
5. National Certificate on Construction Supervision (NCCS) from the Building and Construction Authority Academy and has at least one year of such relevant practical experience in full-time supervision of structural works in Singapore construction sites as may be acceptable to the Commissioner of Building Control.

Please take note that application will be considered rejected if:

- a) incorrect information is submitted for the second review
- b) applicants failed to provide the necessary supporting documents within 1 month after the communication

Interview may be arranged to verify the academic qualification and the relevant practical experience in full-time supervision of structural works before the RTO accreditation. A Professional Engineer with a valid practicing certificate in the Civil or Structural engineering discipline is not required to be accredited as a RTO.

****As of 15 Dec 2017, the BCA regulations state that the requirement for relevant practical experience in the case of resident technical officers is amended from one year to two years.***
