

10TH ASIA-PACIFIC FORUM ON STRUCTURAL ENGINEERING – AMAZING STRUCTURES

ABOUT THE FORUM

The IES/IStructE Joint Committee is pleased to organise the 10th IStructE Asia-Pacific Forum on Structural Engineering with a theme on Amazing Structures. The forum will feature an impressive list of lectures on amazing structures in the regions. There will be ample opportunities during coffee breaks and lunches for delegates to discuss the engineering challenges and innovative solutions directly with the principal engineers/designers of amazing structures.

WHO SHOULD ATTEND?

This forum is organized for practising engineers, contractors, researchers, consultants, architects and other construction professionals who are involved in the planning, analysis, design and construction of structures. Participants are expected to be engineers, contractors, architects and professionals, who wish to upgrade their knowledge on the analysis, design and construction of structures. Students are particularly welcomed.
