# One Day Course on Infrastructure Planning for Township/Large-scale Housing Developments – 39<sup>th</sup> Run

**\*SFC & UTAP Funding\***

## Introduction

Importance of infrastructural provisions in support of township/ large-scale housing developments.

In any large-scale public or private housing developments, physical infrastructure such as earthworks, roads, drains, sewers and utilities, are critically needed not only to enable the physical development of but also support modern community living in the new housing estates. In fact, no development can function properly and effectively without the timely provision of adequate infrastructural facilities and public utilities.

Comprehensive and well-coordinated Infrastructure planning is a prerequisite in developing a new town or housing estate and is carried out in tandem with the master town planning and well in advance of any physical developments. It serves to establish the full infrastructure requirements and guide their timely implementation thereby ensuring quality, efficiency and cost-effectiveness in the infrastructure provisions for the proposed development.

## Objectives:

Equip participants with the fundamental knowledge in infrastructure planning by introducing them to the key aspects in the planning processes.

## Course Outline:

1. Starter on land-development infrastructure
2. Infrastructure Development Process
3. Infrastructure Implementation Framework
4. Consultation with relevant authorities and utility providers
5. Planning processes & technical considerations for key infrastructure
6. Infrastructure Programming and key considerations
7. Coordination of utilities services
8. Summary and Conclusion

## **Speaker Profile**

### **Er. Ong Say Khim**

Er. Ong Say Khim graduated from The City University in London, UK with B Sc (Hons) in Civil Engineering and is a registered Professional Engineer since 1983.

He started his civil engineering career working in the Housing & Development Board (HDB), the public housing authority of Singapore. He worked in HDB for 39 years and has gained extensive hands-on knowledge and experience in the development of various major and minor infrastructure works in support of HDB's island-wide public housing development and redevelopment programmes.

He undertook infrastructure planning from scratch for a number of HDB new towns, including redevelopment of HDB's matured housing estates. His in-depth knowledge and expertise include infrastructure planning, detailed design, construction supervision and project management of various major and minor infrastructure works in the HDB towns and estates.

# REGISTRATION FORM
