Seminar on Portable fire extinguishers and electrical fire alarm systems

SS 578 : 2019 Code of practice for the use of maintenance of portable fire extinguishers

Date: 29 November 2019, Friday
Time: 2.00pm to 5.30pm (Registration starts from 1.15pm)
Venue: Copthorne King's Hotel,
Marquis Duke & Duchess, Level 2
403 Havelock Road
Singapore 169632

This Seminar is / may be qualified for the following:

- (i) IES/ACES C&S Resident Engineers (RE) and Resident Technical Officers Registry (RTO) – STU Pending
- (ii) Professional Engineers Board Singapore – 3 PDU
- (iii) Chartered Engineers (CEng) – 3 PDU
- (iv) Board of Architects Singapore – Singapore Institute of Architects – CPD Pending
- (v) Fire Safety Managers – 5 CPD

Organised by:

Introduction

Portable fire extinguishers can be life savers during fire emergency situations as they can be used both at home and the workplace. This seminar will provide an update on the latest SS 578 : 2019 Code of practice for the use and maintenance of portable fire extinguishers. Portable fire extinguishers are regulated fire safety products and compliance with the requirements in the SS 578 is necessary as stipulated in the Fire Code. SS 578 covers the requirements for selection, installation, inspection, testing and maintenance of portable fire extinguishers. It defines comprehensive requirements for selecting and using the appropriate type of extinguishers for various classes of fires.

The seminar will also update on the latest SS 645 : 2019 Code of practice for the installation and servicing of electrical fire alarm systems, which aligns the requirements for electrical fire alarm systems with the Fire Code. This SS provides the requirements on the installation and servicing of electrical fire alarm systems in the buildings. It covers fire alarm systems using manual call points, heat detectors, smoke detectors, flame detectors and video image detectors.

It is extremely crucial to understand the principles concerning safety in the usage and maintenance of portable fire extinguishers, and the principles of electrical fire alarm systems in the design of buildings.

Join us to learn more about the new SS 578 and SS 645 with our panel of experienced speakers and how to implement the requirements in your industry. Check out the Exhibitor Showcase on their latest innovations in fire protection equipment.

Who Should Attend?

- Fire safety engineers
- Fire safety managers
- Workplace safety and health officers
- Contractors
- Suppliers and manufacturers
- Chartered engineers
- Professional engineers
- Architects and designers
- Qualified persons (QPs)
- Registered inspectors (RIs)

What You Will Learn

- Key changes of the SS 578 : 2019 Code of practice for the use and maintenance of portable fire extinguishers
- Key changes of the SS 645 : 2019 Code of practice for the installation and servicing of electrical fire alarm systems

Programme

Time	Topic
1.15pm	Registration
2.00pm	Welcome Address <i>Ar. Chan Kok Way</i> Chairman, Building and Construction Standards Committee Managing Director, SD Architects & Associates Pte Ltd
2.10pm	Class B fires (key changes in SS 578) <i>Er. Yee Poh Kin</i> Member, Working Group on SS 578 Principal, New Universal Solution
2.30pm	General requirements and design considerations for electrical fire alarm systems <i>Mr David Goh</i> Convenor, Working Group on Emergency Alarm & Communication Systems Managing Director, Vanguard Fire Systems Pte Ltd
3.20pm	Refreshments and Networking
3.50pm	Installation, operation and maintenance of electrical fire alarm systems <i>Mr Benedict Koh</i> Member, Working Group on Emergency Alarm & Communication Systems President, Fire Safety Manager's Association Singapore
4.15pm	Service labelling of fire extinguishers (key changes in SS 578) <i>MAJ Nicholas Tang</i> Member, Working Group on SS 578 Senior Fire Safety Consultant, Fire Safety & Shelter Department Singapore Civil Defence Force
4.30pm	Controlled label for portable fire extinguishers (key changes in SS 578) <i>Mr Edwin Yeo Beng Keng</i> Engineer, TÜV SÜD PSB Pte. Ltd
4.50pm	Panel Discussion Moderator: <i>Ar. Chan Kok Way</i> Chairman, Building and Construction Standards Committee
5.30pm	End
