ASEAN ENGINEERING REGISTER (AER) – Notes for application

The ASEAN Federation of Engineering Organisations (AFEO) Governing Board at its meeting in Vientiane, Lao PDR in June 2011, have agreed to expand the ASEAN **Engineers** Register (AER) into the ASEAN **Engineering** Register (AER) to include the registration of the entire engineering team comprising the Engineers, Engineering Technologists, Technicians and related Associates.

Objectives of the AER

- i. To facilitate the mobility and professional practice of Engineers, Engineering Technologists, Technicians and related Associates within the ASEAN ambit by establishing a framework of mutual recognition of qualifications amongst the ASEAN member countries whereby AER registered Engineers, Engineering Technologists, Technicians and related Associates who wish to take up employment, do business and/or practice outside their home Institution/country may carry with them an approved and recognized professional/semiprofessional qualification;
- i. To safeguard and promote the professional interests of Engineers, Engineering Technologists, Technicians and related Associates;
- ii. To establish a database of the capability profiles of AER registered Engineers, Engineering Technologists and Technicians and related Associates in order that prospective employers from member countries may engage their services.
- iii. To uphold the quality and standing of AER registered Engineers, Engineering Technologists, Technicians and related Associates by facilitating and implementing continuous improvement through the setting, monitoring and reviewing of standards;
- iv. To promote cultural and professional links among members of the engineering profession within ASEAN;
- v. To enhance the wealth creation process of ASEAN countries.

AER Admission Requirements (approved by AFEO Governing Board June 2011)

The minimum requirements for an applicant to be admitted into the AER are as stated below:

(A) ASEAN ENGINEER (AE)

- i. MUST possess an Engineering degree recognized by the home institution/country;
- ii. MUST be a full member of the Engineering Institution and licensed to practice in the home institution/country
- iii. MUST have a minimum of seven (7) years post-graduate working experience in an engineering environment, of which a minimum of two (2) years will be of substantial charge.

(B) ASEAN ENGINEERING TECHNOLOGIST (AET)

- iv. MUST possess an Engineering Technologist degree recognized by the home institution/country;
- v. MUST be a full member of the Technological Association and licensed to practice in the home institution/country
- vi. MUST have a minimum of seven (7) years post-graduate working experience in an engineering environment, of which a minimum of two (2) years will be of substantial charge.

(C) ASEAN TECHNICIAN (AT)

- i. MUST possess an Engineering Technologist diploma recognized by the home country. Such diploma programs must be able to meet the requirements of the Dublin Accord or equivalent;
- ii. MUST be a full member of the Engineering or Technological Association and licensed to work in home institution/country;
- iii. MUST have a minimum of five (5) years post-qualification working experience in an engineering environment or for candidate with a certificate in Engineering or Technical Association

ASEAN ENGINEERING REGISTER (AER) – Notes for application

AER Application Procedure

Please complete the application form and attach one (1) copy of a recent passport photograph, with your name written on the back of the photograph, and submit it along with the necessary payment for the Entrance Fee & Subscription Fee to your respective Home Engineering Organization or Technical Association. Upon successful registration with the AER, you will receive a username and password to update your personal information, experience, and capability profile in the database. This database will be accessible for searches on the internet.
